Rotary District 2050 Rotex Alumni Association

Rotary District 2050 Rotex Alumni Association, also known as Rotex 2050, was founded by alumni who wanted to build on their experiences abroad as Rotary Youth Exchange students. These alumni believe that exchange students' experience should not be limited to their stay in a host country but should continue after they return. The association arranges meetings with Rotex groups from other countries so members can continue to learn about other cultures and perspectives. In collaboration with the Rotaract club at the University of Reading, England, it organized a fundraiser for the Rotary Club of West Bay, Laguna, Philippines, which was hit by a number of destructive typhoons in 2020. The project included constructing a home for a Filipino family. Later, following a rise in hate crimes against the Asian community, Rotex 2050 organized an online meeting in which the dynamics of extremism and racial hatred were explained by professionals in the sector. Many people who aren't members of Rotex 2050 participated, including Rotarians, Rotaractors, and members of other Rotex groups.
